Martinez Soto,Jorge Antonio 10/25/69
McLaney, Mike
Training Camps

Gary and Paul,

In response to the list of names of those reported arrested north of Lake Pontchartrain in 1963, the Archives has come up with only one that is close, not one of those I gave them. It is my recollection one is identical with a name on the bus manifest. If this is the case, they did not make same files of the manifest or they are holding out.

The attached nine pages of CD 829 are, however, fascinating. Here we have a man from a much better than average station in Cuban society and, it would seem, one who knew Mike McLaney well enough to get a post-Castro job from him. Having the same matronymic does not mean he is related to Soto Vasquez, but the possibility exists.

When it turns out there is this connection with the camps, the McLaney brother having provided the property for the ammo depot.

Unless recollection is flawed, O'Connor, the filing agent, knew about the camps because he worked on the Fernando Fernandez bit.

Does anyone have the O'Connor 12/31/63 report, or is it one I've already used, referred to above?

These pages do not reflect (p 1, par 1) how the "remarks" indicated he "led the employee to believe" he "was acquainted with" IHC, unless it was suggested after the ass.

Description is rather meager, with even weight omitted.

Copy not sent Gary for usual reasons (time, paper, xerox machine).

If no one has this 12/31 report and one does have better identification (perhaps there is only one in Biblio) I will get at Archives.
